The report covers a wide variety of health and wellness uses for this famously beneficial herb derived from the rhizome (root) of the plant. Discover the long list of potentially rewarding results [scientific studies](#) have shown.

Turmeric, used for over thousand of years in China and India in their healing and wellness practices. Ayurveda (Ayurvedic Medicine) and Chinese Medicine use Turmeric extensively for a wide range of healing properties. The history of usage for healing goes back thousands of years. It is considered one of the safest and most well-studied natural herbal supplements available. Known in the U.S. as a GRAS (generally regarded as safe) supplement, it is known to positively affect a wide-ranging area of body functions due to its natural anti-inflammatory, anti-bacterial, antiviral and antioxidant properties.

Wellness doctors recommend a blend of Turmeric Curcumin for optimal results. Curcumin is an extract of Turmeric and when added to the whole root rhizome may convey the most wide spectrum of full benefits from over 24 anti-inflammatory compounds not found in Curcumin alone.

Scientists continue to tie a growing list of health conditions to inflammation. From heart disease and cardiovascular health to dementia, cancer, and fibromyalgia, the list of destruction caused by inflammation or resulting in inflammation grows. Consider looking into including a daily supplement of Turmeric Curcumin into your daily routine.

Check out just how many ways you may add to your health and reap the rewards of Turmeric benefits for years to come. Read
